2. Call for bids to be received on January 5, 2006.
3. Instruct the Executive Officer of the Board of Supervisors to advertise the project and to seal and return the plans and specifications to Public Works for filing.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

This action involves contracting for the slurry sealing of roadway pavement.

This project was originally advertised on January 4, 2005, and on February 4, 2005, four bids were received. On October 11, 2005, your Board took action to reject all bids due to the funding for this project being reallocated for repair of roads damaged during the storms of last winter.

This project is part of Public Works' ongoing highway construction and maintenance program.

Implementation of Strategic Plan Goals

This project is consistent with the County Strategic Plan Goal of Service Excellence since it will provide improved highway facilities for the traveling public.

FISCAL IMPACT/FINANCING

The estimated construction cost is in the range of \$200,000 to \$230,000.

This project is included in the Fiscal Year 2005-06 Road Fund Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The enclosed plans and specifications include the contractual provisions, methods, and material requirements necessary for this project. The contract agreement will be in the form previously approved by County Counsel.

As required by your Board, language has been incorporated into the project specifications stating that the contractor shall notify its employees, and shall require each subcontractor to notify its employees, that they may be eligible for the Federal Earned Income Credit under the Federal income tax laws.

ENVIRONMENTAL DOCUMENTATION

This project is categorically exempt pursuant to Class 1, Subsection (x)(1), of the revised County Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987.

CONTRACTING PROCESS

This project will be contracted on an open competitive bid basis. The contract will be awarded to the lowest responsible bidder meeting the criteria established by your Board and the California Public Contract Code.

To increase contractor awareness of our program to contract work to the private sector, this project will be listed on the County website for upcoming bids.

The project specifications contain provisions (1) requiring the contractor to comply with the County's Child Support Compliance Program, (2) requiring the contractor to report solicitations of improper consideration by County employees and allowing the County to terminate the contract if it is found that the contractor offered or gave improper consideration to County employees, (3) requiring the contractor to comply with the requirements of the County's Contractor Employee Jury Service Program, and (4) requiring the contractor to comply with the Newborn Abandonment Law (Safely Surrendered Baby Law).

The project specifications also contain a provision that, should the contractor require additional or replacement personnel to fill employment openings, consideration shall be given to hiring qualified participants in the County's Greater Avenues for Independence or General Relief Opportunities for Work Programs.

To ensure that the contract is awarded to a responsible contractor with a satisfactory history of performance, bidders are required to report False Claims Act violations, labor law/payroll violations, debarments, their civil litigation history, and information regarding prior criminal convictions. The information reported will be considered before making a recommendation to award.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The project is to be completed in 20 working days. It is estimated that the work will start in March and be completed in April 2006. Local residents and businesses will be informed that traffic and local access will be mildly disrupted during the construction.
